Earth Limos Launches a Fleet of Eco-Friendly Luxury Limousines – First of its Kind in Las Vegas

Earth Limos is Las Vegas' First and Only Environmentally Friendly Luxury Limo Service that Runs Entirely on Renewable Fuel Sources

LAS VEGAS, NV - December 23, 2008 - Earth Limos, the first and only eco-friendly luxury limousine service in Las Vegas, has launched a fleet powered by bio diesel, liquid propane gas (LPG), and hybrid technologies that emit far less greenhouse gas emissions than non-environmentally-friendly car service companies. Earth Limos is a modern and sophisticated chauffeur service for bachelor/bachelorette parties, weddings, corporate charters, airport pickups, bar and bat mitzvahs, birthdays, business travel, city tours, convention travel, corporate events, golf outings, high school dances, night club packages, scenic tours, shopping tours, quinceaneras, sporting events, concerts, sightseeing, private tours and city nightlife.

"There is tremendous demand for environmentally friendly transportation, and Earth Limos has spent significant time, thought and money converting these Limos into low emission vehicles to meet this demand while delivering the highest level of luxury and service," said Lou Castro, founder and president of Earth Limos. "40 million tourists visit Las Vegas every year; we are a thoughtful and valuable transportation option for these visitors by getting them where they want to go, in style, and with less impact on the environment."

The highlights of the Earth Limos fleet are the Mercedes R320 luxury sedan, the 10 passenger LPG Lincoln and the Super stretch SUV Bio Diesel Ford Excursion. In addition to a commitment to safety and exemplarily professionalism, Earth Limos is completely committed to minimizing the impact on the environment. From their fleet of low emission vehicles, to the chauffeurs trained in fuel-efficient driving standards, to the vegetable oil ink they use on their recycled paper business cards, Earth Limos is living an environmentally responsible corporate culture. Earth Limos is proud to offer clean-fuel powered luxury limos that are better for the planet without compromising comfort, sophistication and luxury.

Multiple-hour bookings and custom charters are accepted.
